

# Toast sandwich

A **toast sandwich** (also known as a **bread sandwich**) is a sandwich in which the filling between two slices of bread is itself a thin slice of toasted bread, which may be buttered.<sup>[1][2]</sup> An 1861 recipe says to add salt and pepper to taste.<sup>[1]</sup> A version is served at the British three-Michelin-starred restaurant the Fat Duck.

## Victorian recipe

A recipe for toast sandwiches is included in the invalid cookery section of the 1861 *Book of Household Management* by Isabella Beeton, who adds, "This sandwich may be varied by adding a little pulled meat, or very fine slices of cold meat, to the toast, and in any of these forms will be found very tempting to the appetite of an invalid."<sup>[1][3]</sup>

## Modern versions

In November 2011, the toast sandwich was recreated by the Royal Society of Chemistry in a tasting 150 years after the release of Beeton's *Book of Household Management*.<sup>[4]</sup> The society sought to revive the forgotten dish in wake of the Great Recession after calculating the cost as low as £.075 per sandwich.<sup>[5]</sup> They named it "the country's most economical lunch", offering £200 (equivalent to £295.74 in 2025) to whoever could create a cheaper edible meal.<sup>[6]</sup> Due to an overabundance of submissions, the offer was closed seven days later and the £200 given to a randomly selected entrant.<sup>[7]</sup>

In Heston Blumenthal's restaurant the Fat Duck, 12 toast sandwiches are served as a side dish to the "Mad Hatter's Tea Party (circa 1892)", a main course inspired by *Alice in Wonderland*.<sup>[8][9][10]</sup> Blumenthal's toast sandwich involves bone marrow salad, egg yolk, mustard, gastrique, mayonnaise, and tomato ketchup.<sup>[10]</sup>
